

Meyer House Care Home residents enjoy magic table projector

Here at Meyer House Care Home, a 'magic table' projector has kindly been loaned to us from Bexley Council.

The projector creates a range of **relaxing light displays** such as flowers, balloons, bubbles and fish, which residents can enjoy following, touching and interacting with.

It's so **therapeutic** and even our residents in their rooms are able to benefit from the games it has on offer.

Here is **Pauline enjoying a game** which has been projected on to her bed – *great fun!*
